## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see pages 1-4, filed 27 September 2007, with respect to 1- 7 have been fully considered and are persuasive. The rejection of claims 14 and 7 and the objection of claims 5 and 7 have been withdrawn.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: The examiner has found the arguments submitted with the Notice of Appeal to be persuasive, particularly pertaining to Ikegame failing to disclose that the leaf springs are attached to the supporting means at different distances (found on page 2 of the Pre-Brief Conference request) and the argument that a leaf spring fails to provide the same range of motion as the wires used in applicant's invention. Further, the prior art of record, alone and in combination, fails to teach or disclose an optical pickup comprising: a lens holder holding a lens; a substrate secured to the lens holder; a fixing portion; three pairs of first, second and third wires, each pair being formed by one left wire and one right wire; and attaching means; wherein the lens holder is resiliently supported in such a manner as to be displaceable by the three pairs first, second and third wires which are attached to the fixing portion by the attaching means; the first, second, and third wires have the same length and are formed of the same material, and are soldered to the

substrate at different distances from the attaching means; and the first, second, and third wires extend parallel to each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
